To Whom It May Concern:

Sara Schuster has been a school social work intern in the West Bloomfield Schools under the supervision of Ms. Anne Evans during the 1992-93 school year.

During this period, she has worked extensively providing therapy for individual special education and general education students, directing student groups, and assisting Ms. Evans as the building special education coordinator.

Ms. Schuster has shown enthusiasm, skill and competence in all that she has done during her internship with our schools. She has so impressed her school social worker colleagues that she was offered employment doing therapy with general education students at another elementary school.

Ms. Schuster will be a very fine school social worker. I only regret that we do not have a vacancy and placement for her.

Sincerely,

Rose Crandell
