To Whom It May Concern:

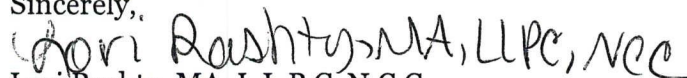

I highly recommend Sara Kraft for any Social Worker position. She has been an outstanding School Social Worker for the past five years at Hillel Day School in Farmington Hills, Michigan. She has demonstrated her competence and excellence in this role every single day.

Currently, I am a first/second grade teacher and a parent of an 8th grade student at Hillel Day School. In the past 5 years, Sara has worked with our 7th and 8th grade students facilitating grade level lessons. In addition, Sara developed and implemented valuable social skills lessons and groups for grades K-2. Further, she has met with individual students on a consistent basis. Sara planned creative classroom & group lessons that were always very engaging and advantageous to our students. She was very responsive to our students' needs and worked very hard to help our students succeed in the school setting. Sara is incredibly organized and keeps data and daily logs on every student she comes in contact with.

Sara cares deeply about helping the students, parents and staff at Hillel. She is able to reach each student through her loving and skilled mannerisms. Sara is able to make a significant difference on our team by providing ongoing suggestions and helpful techniques to support our students. She completed many behavioral observations in our K-2nd community. Her behavior plans are always well thought out and very helpful. In addition, she facilitated numerous parenting workshops on topics such as suicide prevention, cyber safety, gratitude, stress management, respect & responsibility and navigating social media.

In conclusion, Sara has been a wonderful part of our Hillel community and we are very sad to see her go. We were so lucky to have the opportunity to work with her and learn from her. Any child or parent would greatly benefit from Sara's professional expertise.

Sincerely,

Lori Rashty, MA, L.L.P.C, N.C.C.

First/Second Grade Teacher
